Another great way to support our youth and livestock show is to attend the sale on Saturday August 18th at 11:00 AM and purchase an animal!

2012 marks the fourth year Garfield County will host a Junior Livestock Show and Sale. The goal of the Garfield County Junior Livestock show is to showcase the livestock projects of the youth in Garfield County. As a learning and business venture, these young people select, feed, and care for their livestock project and exhibit them at the fair to be judged, graded, and sold.

Purchasing a project animal supports these young people who are in the agriculture business and provides you with top quality, locally raised meat!

It's also a great tax write-off!!

*Help keep our youth involved in our counties agricultural traditions. By supporting the kids in their efforts you will be helping to keep traditional farming practices alive. Whether working with cattle, or raising sheep and pigs, these projects teach valuable life lessons to our youth!*
